

Capri Students Go to London, AGAIN!!!

2011 marks the 17th year that Capri Cosmetology Learning Centers will attend the Salon International Hair & Skin Care Show held annually in London, England.

Capri's belief is to keep its curriculum, staff, techniques, and training programs modern and on the cutting edge. We must look to Europe to find trends, fashions, and techniques that are ahead of what is available in the United States. The knowledge we gain from attending this show - one of the most important and largest in the world - gives us the ability to bring back techniques and skills that we can transfer to our staff and then to our students. This is what sets us apart from other schools that offer the same basic curriculum. By updating our curriculum and training programs after attending the show, we are definitely offering things to our students that no other school does.

This year students that attended the show saw famous guest artists like Patrick Cameron, Vidal Sassoon, Goldwell, TIGI, Toni and Guy, and many more!

Why not join us for the Salon International Hair & Skin Care Show 2012!!
