MEDIA RELEASE - APRIL 2010

Capri Cosmetology Learning Centers is EXPANDING and REMODELING our Nanuet location!

In order to give our students the best possible education they can receive, we are making the school bigger and better! Each classroom will be almost double the size, the Clinic Floor area will be doubled, and Esthetics & Make-Up students will now have a completely separate classroom from the Clinic Spa area, not to mention a brand new bathroom and changing area for their clients. We will also be building a new and bigger break room for our students! Everything will be brand new and furnished with state of the art equipment!

It is very important to us to always keep raising the bar
