

Stylist from London, Keith Cooper, visits Capri! May 2010

Keith will be visiting Capri Cosmetology Learning Centers during the week of May 10, 2010. He will be offering Advanced Haircutting Courses to Capri students as well as Capri graduates and anyone else who is interested. Keith will also be spending an evening talking to prospective students about the great rewards the beauty industry has to offer.

You can call Capri to register for the Advanced Haircutting class!

Keith Francis Hair and Beauty is now entering into its 20th year.

In 1990 Keith opened his first salon with two stylists and one trainee in Tenterden, a town in the heart of the Kent countryside, 50 miles south of London. Keith Francis now has over 50 employees and is still growing, with two hair salons and the recent addition of Esthetics and Make-Up, which is now available in both salons.

Keith has 31 years experience in the hair industry and has visited the United States on many occasions, working and carrying out demonstrations at some of the largest shows, including The I.B.S. in New York, the Mid West Show and The Los Angeles State show.

Based in Washington DC, Keith worked for five years as an Art Director for Graham Webb International. Here he demonstrated advanced cutting courses, and photographic sessions. Keith has visited all 52 states in the U.S. and has many times demonstrated for L'Oreal, Redken, Matrix and Graham Webb Intl.

Keith Francis Quote;

"One of the most exciting and challenging things in our industry is the constant change, the need to keep up to the minute with style and fashion. The need to learn new ideas and develop new things. I have two hats to wear; one for running my business and the other is for developing new ideas, techniques and fashion."

Capri Cosmetology;

Keith has been a close friend of Anthony Fiore for over 25 years. They both worked shows and many education sessions all over the United States.

Their paths are nearly mirrored, but on different sides of the pond. Keith feels very proud of what Anthony has achieved with Capri becoming one of the best training schools on the East Coast with two locations. This does not just happen, it takes a clear vision and a great deal of hard work to reach this point in what is

a very competitive market. Keith would like to say *"Well done Anthony, I am very proud of you"*.
